Welcome to the Great Outdoors! This beautiful, ranch style, single story home features a bright and open floor plan with everything you would expect in a custom home. From the concrete circular driveway to the expansive upgraded kitchen to the custom tiled shower. With four bedrooms and 3 bathrooms there is plenty of space for the kids, or extended family. The primary bedroom and bedroom #2 are on the west side of the home, and bedrooms #3 and 4 are on the east side of the home. Currently, 2 of the bedrooms are being used as an office and work-out room. The home is all one level (no step-down) and the main areas have upgraded tile flooring, and the bedrooms have neutral tone carpets. The large kitchen also employs a large breakfast bar and opens up to the breakfast nook area. The wood burning fireplace is a nice focal point, warm and inviting for those family get-togethers. The finished three car garage was strategically built to avoid the westerly winds and has become a popular 'hang-out' for family gatherings and with direct access to the main house, there is a good sized mudroom/laundry room with plenty of storage and counter space. In addition to the main house, there is an enclosed metal building that could be used as a workshop, protect your toys and is currently being used to house the tractor and other supplies needed to maintain the totally fenced 2.5 acres. There is drip irrigation along the perimeter
